Mark Your Calendar for "2023 and me: An overview of the new NIH Data Management and Sharing Policy"

This TIERS event will be held virtually on **November 18th from 12-1pm**, presented by Marla Hertz, PhD, Associate Professor and Research Data Management (RDM) Librarian at the University of Alabama at Birmingham.

This event is an orientation to the new policy requiring a Data Management and Sharing Plan for most NIH grants submitted on or after Jan 25, 2023. Dr. Hertz will focus on what researchers need to know to write their own data management plans. Attendees will learn:

- What the policy states, which funding mechanisms fall under the new policy, and how the changes will affect grant submissions.
- Where to access resources, templates, and sample data management plans.

CTSTP Deadline is Approaching: Apply by 5PM on November 14th

Join the nearly 400 individuals from across the CCTS Partner Network trained since 2009 through the Clinical and Translational Training Program (CTSTP).

This six-month certificate program runs from January to June and provides clinical and translational research training in the areas of clinical trials, epidemiology, biostatistics, ethics, outcomes research and much more. Sessions are presented by experienced clinical and translational researchers

and individuals with special expertise in areas such as grants and contracts and regulatory issues from across the CCTS Partner Network. CTSTP serves as a catalytic career launch for investigators at multiple stages and in a variety of roles, leading to new professional appointments, successful extramural funding, promotion and tenure.
